

FOOD TESTING SERVICES

One of the key requirements in food safety and quality testing is rapid turn-around-time. Fast sample pickup and delivery, faster testing and speedy reporting of results are the greatest needs. A testing laboratory, in order to meet these needs would have to have efficient sample pickup and delivery logistics and the wherewithal in terms of experience and capacities to deliver speedy results.

Established in 1984, Vimta is India's leading independent food testing laboratory. We are the largest and most geographically diverse food testing laboratory with 10 pan India full service lab locations that cater to routine as well as specialized analytical chemistry and microbiology testing requirements. For customers this means, global resources and strong know-how services are brought closer to them with a local focus. We have an enviable reputation for delivering accurate results with highest levels of customer service.

Specialized tests

- Nitrosamines testing
- Dioxins, Furans and Dioxin like PCBs
- Pentachlorophenol in Guar gum
- ETO testing in botanicals & food products
- Betel leaves testing for Salmonella
- Organic produce testing
- Multi pesticide residue screening (525+)
- Multi antibiotic residue screening (100+)
- Amino acid profiling and Protein quality (PDCAAS)
- Sterol profiling
- Infant Nutrition ingredients
- Energy drink ingredients
- GMO testing
- Microbiology pathogen analysis by RT-PCR & VIDAS
- Microbiology pathogen species identification by Gene sequencer
- Food allergen testing
- Illegal dyes detection
- Shelf life evaluations
- Packaging material testing
- Preservative efficacy / micro challenge studies
- Fortified food testing and premix testing

Quality Management System

- Validated methods
- Fully qualified equipment
- Electronic data security and integrity through validated software
- Thoroughly trained and qualified staff (~ 1100 member team)
- Appropriate environmental conditions for sample storage and testing across sample life cycle
- Extensive participation in proficiency testing and inter-laboratory comparison programmes
- Unbroken, sample chain of custody through LIMS
- Good documentation practices
- Two level report verifications by technical and QA functions
- Continuous routine process audits and internal audits
- Continuous improvement through a strong CAPA system
- Periodic Management reviews

Approvals & Accreditations

Largest Network of Food Testing Labs

Noida Lab

C- 58, Sector-8, Gautham Buddha Nagar, Noida, 201301

Ahmedabad

#B-303 & B-304, Shilp Aaron, Tower-B, Opp : ARMIEDA, Shindu Bhavan Road, Near Pakvan Circle, Ahmedabad – 380054

Pune

Bhakti Genesis, Fifth Floor, S No. 245 H. No. 2B, Situated at Wakad, Tal Mulshi Dist. Pune - 411 057,

Mumbai (National Food Laboratory)

National Food Lab, JNPT Township, Sector-3, Near CSF Training Hostel, Mumbai - 400707

Kolkata

1st Floor, En-34, EN Block, Sector V, Bidhannagar, Kolkata, West Bengal 700091

Visakhapatnam

No. 9-13-45/2/9/3, Survey No : 5/3 & 5/4, Waltair Ward, VIP Road, Vizag - 530003

Nellore

Mc Arcade, Nellore, mini bypass road, Magunta Layout, Nellore, Andhra Pradesh - 524 004.

Bengaluru

1047, 5th Block, Rukmini Plaza, West of Cord Road, Rajaji Nagar, Bengaluru – 560010

Hyderabad (Head Quarters)

5, M N Science & Technology Park, Genome Valley, Shameerpet, Hyderabad - 500101, Telangana, India
